

## TH10/16 / Pow / Dual WiFi switch

### Introduction :

TH / Pow / Dual are WiFi switch powered by ewelink smartphone application , except the basic wireless on/off control , they could support more functions like Temp.& Humidity monitoring , Power Monitoring , Dual output .

### Function :

- Support on/off wireless control by eWeLink APP
- Support Timing & Countdown timing
- Support scene , smart scene
- Support Temp.& Humidity monitoring function (Only TH10/16 version)
- Support automatic power on/off action with TH sensors (Only TH10/16 version)
- Support Power monitoring function (Only Pow version)
- Support two channel output (Only Dual version)

### Datasheet :

- Power Supply : 90V - 250V AC
- Max Current : 10A/16A
- Max Wattage: 2200W/3600W
- Wireless Standard : Wi-Fi 2.4GHz , 802.11.b/g/n
- Security Mechanism : WEP/WPA-PSK/WAP2-PSK
- Material : FR-ABS
- Connector : Universal
- Dimension : 115 \* 52 \* 32 mm
